PENNSYLVANIA DELEGATION ARE THEIR CLOSE ALLIES,

McKinley Men and Their Dilemma--Presidential Booms to be Humored--Currency Question-Lady Delegates.

Cleveland, O., June 18 .- Every incoming train brought scores of delegates and visitors to the Republican league convention which begins here orrow. The business portion of the city is profusely decorated. League politics is the principal topic of discussion among the delegates on the ground. General A. E. McAlpin of New York, Hon. H. C. Evans of Tennessee, Hon. S. B. Elkins of West Virginia, Colonel Isaac Trunbo of Idaho and John Goodnow are candidates for the presidency, their strength standing in the order named.

western delegates want to meet them. The silver enthusiasts are greatly disappointed tonight over the attitude of the mountaineers and the colored brethren from the south. The south-ern delegates say the Democrats of the south are dividing on the silver ques-tion and that if the issue is forced they will vote with the eastern and other delegates against free silver, so as to have an issue against the southern Democrats that will break the old lines of race prejudice. The southern delegates are for a policy of expediency and say the old Whig element of the south is "sound money" as well as for protection, and that the solid south can be

tection, and that the solid south can be broken by the Republicans declaring in favor of both those principles.

TARIFF LEAGUE AT WORK.

The American Protective Tariff league has elaborate headquarters here in charge of General Secretary Wilbur F. Wakeman of New York and several state secretaries. The organization has over a 1,000 auxiliary leagues, 2,000 officers and correspondents and over has over a 1,000 auxiliary leagues, 2,000 officers and correspondents and over 6,000 newspaper using its bureau matter. It is evidently forming an alliance here with the anti-silverites of the south, whatever may be its policy on a further combine for 1896.

operating closely with the tath league and working with the southern dele-gates for protection and "sound money" without regard to the contest for pres-ident of the National league. The southern states are more largely repre sented than in former years. There is a movement to avoid any decisive action whatever now on the tariff, sil-ver or other disputed questions, and to hold the annual convention next year after the Republican national conven-tion, so as to avoid the embarrassment of anticipated action on issues that are contested. There are here now leading contested. There are here now leading Republicans who have never attended league meetings before, and who are here in the interests of McKinley, Reed, Allison and others for president. It is realized that the presidential boomlets will be more numerous and more luxurient than ever next year, and for that reason it is argued that the meeting of 1896 should be held after the Republican next and a convention.

M'KINLEY'S MEN RATTLED. Mr. D. D. Woodmansee, president of the Ohio league, withdrew as a candi-date for national president because of McKinley's candidacy for president, and now the Onio delegation does not know what to do. Miss Boswell has been a great worker in New York and was enthusiastically working all day for Gen-eral McAlpin for president of the Na-tional league. There are quite a number of ladies present.

Opposed to Free Coinage.

Jefferson City, Mo., —une 18.—The fifth annual meeting of the Missouri State Bankers association convened here at 2 o'clock this afternoon with 100 delegates present. After prayer and an address of welcome by Mayor Edwin Silver, President Houston delivered the annual address. He defended the bankers from charges made by Populists and politicians that they were oppressors or useless. He declared that modern banks were co-operative enterprises in which the people at large were most deeply interested. The bankers themselves being only trustees for others and as such doubly trustees for others and as such doubly bound to be conservative and upright. He was opposed to free coinage.

WHAT WOODSON SAYS.

Darlington, O. T., June 18.—Via El Reno, (Special.)—Your telegram if the 17th inst. received. No Indian was killed near Watonga within my knowledge An Indian named Coshah-Red-Lodge who was arrested and taken to Arapahoe on suspicion of having committed rape on the person of an old woman near that place, was shot and seriously wounded by the sheriff, under the following circumstances: On Saturday last the Sheriff took him out of town where a baseball game was going on When near the place he became frightened at the shouting and crowd and when hear the place he became right ened at the shouting and crowd and thinking he was going to be mobbed attempted to escape and was shot three times by the sheriff, once through the bowels. Captain Mackay in command of the Third cavalry being encamped on the Washita near Arapahoe, moved at once to that point that he might by his presence and counsel, prevent a col-lision between the Indians who would naturally become highly excited as soon as they learned of the shooting. He reports under date of the 15th that the wounded Indian was resting quietly. He is of the opinion that the shooting Wounded Indian was reasing quieds. He is of the opinion that the shooting was wanton and unnecessary and that circumstances lead to the conclusion that it was prearanged by his being taken to the base ball game where it was expected that he would attempt to escape. I have sent a detachment of the police force from this agency to preserve order and quiet among the Indians and expect no further trouble. It is proper to add that young Red-Lodge is believed to be innocent of the charge. STRIKE ON CHOCTAW ROAD. Track Layers Delay Euilding by Wanting to Discuss Wages.

oklahoma City, O. T., June 18.—
About seventy-five of the track layers on the Choctaw laid down their tools and went out on a strike Saturday night. They are now receiving \$1.50 per day and they want \$1.75 per day. They claim it is not enough for such heavy work, especially, when they are compelled to pay \$4 per week for their board. It is suspected that they timed the strike when the company wished to rush the work, thinking they would rather pay the increase than be delayed. They can cause but little delay as there are so many men out of work that it will take but a short time to supply their places.

ACCUSED OF LEAVING THE SHIP-WRECKED TO PERISH.

Stient Partner in the Fair Wheat Deal-Jurists Talk United States to Each Other--General Coast News.

San Francisco, June 18 .- An evening . paper says: When the government's in-vestigation shall have been held there will be no lack of testimony to show the culpability of the Pacific Mail in the Colima wreck. Besides the testimony given before the hull and boiler inspectors, A. D. McLellan has received aletter from his brother, who has a coast ranch in Mexico, near the scene of the wreck. Ten of the wrecked passengers are being cared for by him, and their story of the wreck corroborates all that has been said against the management of the ship. McLellan writes that from the story told by the suvivors at his place, the wreck was all due

to Captain Taylor.
"Certain it is," adds the writer, "that he made no attempt whatever to save the passengers. The rescued passengers tell methat the coverings were not taken off the boats, and further that the passengers were not notified of the Plenty of Rain.

Dighton, Kan., June 18.—(Special.)—
The Republican county convention was held last Saturday and the following nominated: E. D. Hyames, for register of deeds; Truesdale Whiting for sheriff, W. H. Lee for county cierk, J. H. Schiereck for county treasurer; Jos Morris, for surveyor and Dr. F. L. Rownd for coroner.

Calin in danger until five minutes before the sail, though there was such confusion then that it was practically useless to attempt to do anything.

JUST KEPT TO LOOK AT. "The passengers endeavored to take down the life preservers, but he mate forced them to put them back. One of the men here picked up a preserver and he was peremptorily ordered to put it back where he had found it. All the women and children were on deck just before the Celima went down, though many were washed off by the rushing waters or knocked off by the flying spars before the end came."

The government inquiry will be directed to ascertain among other things that the officers of the San Juan failed to pick up the passengers who have

to pick up the passengers who have been drifting ashore near the scene of the wreck after the San Juan's depar-ture. There is abundant evidence that they made nothing like a thorough search for the suvivors and it is thoughs that many lost their lives through that neglect.

c. H. Cushing of Oakland, a Colima survivor, picked up by the San Juan, was before the steamboat inspectors this afternoon. He testified that before the Colima sank there was no canvass out. The lumber on the Colima's deck was piled four and a half feet high in answer to the question "did the officers of the Colima do all in their officers of the Colima do all in their power to save the lives of their passen-gers?" Cushing replied: "The officers gave us no warning. No life preservers were furnished us, and I heard no order to lower the boats."

An evening paper publishes a sensa-tional story stating that the late ex-Senator Fair had a partner in his pur-chase of 206,000 tons of wheat by which speculation a loss of from \$2,000,000 to speculation a loss of from \$2,000,000 to \$2,000,000 has accurred. It is said that another millionaire estate was connected with the attempted wheat corner in a partnership capacity and that since Fair's death strenuous efforts have been made to conceal the fact, the living partner saddling the entire loss upon the dead. Wholesale bribery of cierks, brokers and others intimately connected with the big wheat deal is said to have accomplished ellence re-sarding the partner who did not pay his share of the loss.

JUDGES FALL OUT. JUDGES FALL OUT.
Chief Justice Beatty, of the Callfornia supreme court today sent to
Presiding Judge Hebbard of the superier court a red hot communication on
the recent report of the San Franciscojudge. He says that while the grandjury did not openly charge the supreme
court with gross corruption in connection with the election fraud cases of
Sternberg and Cohen, it did so by implication. Chief Justice Beatty defends the action of the supreme court
and bitterly attacks the grand fury
